## **HOW TO PICK-UP A TRUCKLOAD OF WOMEN, ANYTIME, ANYWHERE!!**

From: Culver City, California  
Monday, 11:45 A.M.

Dear Friend,

A college girlfriend once said to me: "Ross, if you throw enough shit around, some's bound to stick somewhere!".

Well, she was about as beautiful as she was elegant (translation: she was butt-ugly, but back then I just couldn't do any better!). But actually, she was right.

So today, I want to talk about how you can generate lots of prospects by being able to meet women ANYWHERE.

Now besides the more obvious reasons, there's another one that's very important, especially for you recovering "nice guys".

You see, often when I do a radio talk show, I get a call from some poor schmuck who's really getting the run around from a woman. She's treating him like crap, he's getting nowhere and..

HE'S STILL STICKING WITH IT!!!!

I hope you've never found yourself in a similiar situation.

Anyway, invariably when they ask me what they should do to win the bit..., uh, girl, over, I ask them a question that really makes them think. What I ask them is,

"If you knew you could go out tomorrow, and meet 10 women that are far hotter and much more interested in you than this one, would you put up with all her crap?".

Of course, 10 times out of 10 there answer is, "HELL NO!".

That's why being able to meet lots of women is so important. It insures that you don't slip back into old "nice guy" ways and come off as being too hungry. Because when your options are limited then you make the few options you do have way too important. And, in any area of life, whether it be sex, love or business, if your choices are limited, and you make the few you do have too important.....

YOU WIND UP GETTING YOUR ASS KICKED!!!!

So now that I've got you convinced, let's move on to some meat. Let me start by talking about the very best places to meet women. Places where women are friendly. Places where women are jammed-packed. Places where women aren't on guard and where you'll spend no money whatsoever to meet them.

Just what are these magic places? Any place where women go to...

FEED THEIR FACES!!!

Yup. I'm talking about gourmet ice-cream shops, gourmet cookie places, and especially, especially, gourmet coffee outlets!!

You see, women have this thing about pleasing their mouths and taste buds(it's a well known fact that 80% of the people who suffer from eating disorders are female) and any place that caters to this hankering of theirs is where you'll find them gathering.

Let me give you an example: here in the Los Angeles area we have two major gourmet coffee places: the Coffee Bean and The Tea Leaf, and Starbucks. Both of these places are JAM-PACKED (or should I say gunch-packed?)with some of the best looking beaver I have ever seen.

They are JAM-PACKED in the morning when these babes need their wake-up rush before going to work.

They are JAM-PACKED at lunch time when they get their after-lunch cup of coffee.

They are JAM-PACKED from 5 to 6:30 in the afternoon as the babes either have another cup or are buying coffee to brew at home.

What's that you say? That's not enough for you? Well, how about this: from 7P.M. to around 1 am the coffee places that are located near college campuses are....

JAM-PACKED WITH COLLEGE AGE SNATCH, STUDYING THEIR POLITICAL SCIENCE, ART HISTORY, ETC.

Now, think back a minute to when YOU were in college. Did you enjoy studying? Did you like cramming? Or would you welcome virtually any opportunity to put the damn book down and do something more fun, like talk to an interesting, mesmerizing stranger?

Here's another cool thing about these "coffee-houses": they often have amateur "poetry reading" nights, where anyone(that means you, Buckwheat!) can get up and read a few lines.

Of course, I wouldn't leave you hanging out there, expecting you to make up any old poem. So here is a great Ross Jeffries get laid poem that you can read, and I guarantee the babes will want to fuck you, because it's filled with all sorts of hypnotic catch phrases and hidden commands to get them all hot and horny (much much more about this in my "Secrets Of Speed Seduction Tape Series" and the book by the same name that I've just finished). Here's the poem, and I hope you've got the balls to go for it!!

Fascination: By Ross Jeffries

Have you ever been fascinated  
by someone who's words just seemed to  
PENETRATE you?

You FIND YOURSELF LOOKING  
and you can't look away  
and the more that you try  
the more that GAZE STAYS

RIVETED HERE  
where you want it to be  
cause you know that there's something  
you just have to see

As you LISTEN SO CLOSE  
and you START TO WONDER  
what would it feel like  
to be FALLING UNDER

A spell, mmm so magic  
being spun by the sound  
of a voice whose rich warmth  
was spreading on down

Have you ever experienced  
INSTANTANEOUS CONNECTION?  
To the point where your thoughts moved in  
mmmm...  
Just one direction?

People sometimes ask,  
"Please...just a kiss!"  
Funny how you find yourself  
WISHING THE SAME WISH

Your mind is amazing  
when you really  
LET IT GO  
As you FIND YOURSELF PICTURING  
mmm..you know?

As the warmth of that voice  
takes on a glow  
Spreading and pulsing  
where you want it to go

I will tell you all you desire...

ME...I know.

You step out of what was  
Invited, slipped inside  
Feels like warm rain  
Between your sighs

And it's not important  
that you find  
every inhibition  
is left far behind

As you recall how it feels  
To be SO IN LOVE  
And you SEE THAT IMAGE of us  
(point to it)  
Up above

You see at last  
who you've finally found  
what you've looked for  
and longed for  
has finally COME round

(By the way, if you don't have the balls to read this out loud,  
you can always send it in a "love letter" to some girl you really  
want. It even makes for a good response to a personal ad. Aren't  
I a genius?)

Ok. While coffee places are my favorites, because of their all  
around great hours, don't discount places like ice-cream or  
yogurt places. These are best around lunch hour.

Another good lunch hour spot is any type of trendy health food  
restaurant. Not only are these places a virtual snatch magnet,  
but some of these women really take care of their bodies and are  
enough to cause a meat eater like me to actually gag down a sprout  
sandwich, just to get a chance to scam on their wondrous selves.

#### BARS, PARTIES, AND "NIGHT" SPOTS

Well, if you want to waste you're money, go ahead. Women in  
these places are far more "uptight", far more likely to be very  
picky about who'll they'll talk to, and plus you'll probably  
have to spend some money to get in or stay in.

#### USING A GIMMICK TO GET THE GUNCHES

Are you into metaphysics? Do you believe in astrology?  
Astral projection? ESP? Tarot cards? What's that you say?  
You think it's all a bunch of crap?

Well, so do I. But guess what? Women eat this stuff up like  
candy, so I PRETEND to be interested in all of it!!!

Of course, my favorite gimmick of gimmicks is analyzing a chick's  
handwriting. Do I have any training in this field? Have I even  
read a single book on the subject?

OF COURSE NOT!!!

But of course, just by coincidence, we carry the good old  
Grapho-Deck, the world's best gimmick for picking up women,  
right in the Ross Jeffries Catalog.

All you need to do is walk into any bar or party with it, and corral  
the first girl you see. Just walk up and say, "Excuse me, I  
know  
this might sound a little odd, but do you handwrite or do you  
print?".

After she stares at you like a bug for a second, she'll say, "Both. Why?".

You say, "Well, I got this neat little deck of cards from a friend, and they're supposed to let you analyze a person's writing. I've tried it a few times and it really worked, and you looked like a fun person to break the ice with. Want to give it a go?".

Almost always you'll hear yes, and the neat thing is other girls will be watching and then they'll come up to you and ask if you'll, "Do me! Do me!".

I'm serious, it's that easy.

Pick-Up Lines Made Easy:

The key to any good pick-up line is to get a woman's attention and make her laugh. To that end, I try as best as possible to be unconventional in my approach. (To find an unconventional woman, use an unconventional approach!) Let me give just a few of my favorites:

1. (Delivered rapid-fire fast!) Hi! Do you have a boyfriend? Would you like a better one? Answer the second question first!

2. (To a woman in a tight outfit at a party or bar!) Hi! That's a great outfit you're almost wearing!

3. (Also to a woman in a tight outfit at a party or bar!) Hi! You know, if I were a girl, and I looked as good as you do, I'd look at myself in the mirror all day long til I worked up the courage to ask myself out! Speaking of which, my name is:.....

4. (To woman with great legs in any situation!) Excuse, but I just wanted to tell you, if God made anything nicer than your legs, (or smile!) he's saving it for himself! My name is:.....!

5. (To a pretty woman, anywhere!) Hi, has anyone ever told you you're a shining example of genetic perfection?

6. (The shy, sincere approach) Excuse me! I'm sorry to interrupt you here but I really wanted to meet you and I'm willing to make a total fool of myself to do it! My name is:.....!

Ok? Those are great for a starter! We'll continue on this topic in future issues, and please feel free to send in your own!

Reader's Mail:

Dear Ross Jeffries:

What is your recommendation for a person that is willing to give you their name and phone number but then has an excuse every time you want to ask them out? Also, what

about those broads who don't have the decency to cancel a date, they just plain out and out fake it and then don't show up?

J. N.  
San Leandro, CA

Dear JN:

Sounds to me that this girl is seriously gun-shy. You didn't tell me her age, but I'll bet she's quite young as well. If you sense that she isn't teasing and is just fearful, you just need to ask her about it, calmly, without getting mad. Just say something like, "Let me ask you something. If I had a magic wand, and I could wave it and make anything we wanted to disappear, what would have to disappear in order for you to feel comfortable going out with me?".

If after all that you don't get a date or a favorable response, move on! Never ask a girl out more than three times: she either just isn't interested in you or is so fucked up in her current situation that she's not worth a flip anyway!

Dear Ross,

Thanks so much for coming up with the idea for the newsletter! It's brilliant and I've put all my horny buds on your mailing list. I've been putting your ideas into action and am amazed how well they work, especially with beautiful women.

Could you please, in a future issue, talk a bit about how to break up with a woman? Simply dumping them is pretty awful all the way around. I'd be interested in finding out how to keep things open for later reconciliation as well as taking the option of dusting her off for good.

A tip I'd like to pass on to my fellow c\*\*t hounds: The first piece of clothing to take off her is her shoes! This is non-threatening to her, easy to accomplish, and it always works!

Matt M.  
Greensboro, N.C.

Dear Matt,

Thanks for the disrobing tip! I prefer to take her top off first, cause I like seeing titties better than feet, but to each his own!

As to your question: geez, my expertise is in getting them, not dumping them! I usually just say, "Hey, it isn't there any more, for me! But I still care deeply for you... AS A FRIEND!" Ha! Isn't turn about always fair play?

Any suggestions for Matt from you readers out there?

Hey Ross!

Thanks loads for your seduction manual. I have made good use of your ideas and suggestions; but that's not why I'm writing you.

Could you please suggest some books, methods, ideas and techniques on hypnosis/self-hypnosis? I'd really like to learn more.

Brooks E.  
Philladelphia, PA

Hey Brooks!

Thanks for the compliments; keep sending 'em cause we love 'em! As for books, tapes, etc. on hypnosis, well, we've got the HPP tapes by Lloyd Glauberman which are an excellent introduction into experiencing trance. If you'd like to learn more about how to DO hypnosis to others, or how it works, you could try the following books:

1. Monsters and Magical Sticks: There's No Such Thing As Hypnosis by Steven Heller.
2. Trance-Formations by John Grinder and Richard Bandler

You can order these from almost any psychology or New Age bookstore; sorry, we don't carry 'em.

If you really want to learn about how to do hypnosis on others, call my good friend and teacher Kenrick Cleveland, at (206) 696-5299. Tell him I sent you.

Ross' Plug Corner:

Guess what? It's here! It's ready! My brand new book that I've been working on for years: *Secrets Of Speed Seduction: How To Create An Instantaneous Sexual Attraction In Any Woman You Meet!* I've actually created an entire home study course, and we're working on a video(one in a series) to go with it! Rather than plug any more, just check out the back page of this issue for more info/hype!

**Peace and piece,**

**Ross**

P.S. It looks like I'll also be hitting the T.V. talk show circuit all over again to promote this new book, so be sure to keep in touch with us so I can let you know of upcoming appearances. And, who knows; maybe you can even be in the studio audience to cheer me on, so I won't have to face the same old lynch mob of howling, neo-feminist geekoids!

P.P.P.S. Anyone out there know anything about marketing via computers, BBS's, the Inter-Net, or pay services like America

On Line, Compu-Serve,etc? Anyone have any ideas how I can get this newsletter posted electronically to these services? If so I'd love to talk to you. My number is (310) 822-5771.
